Re: Patt Griffin

To Whom It May Concern:

If you are looking for a dedicated, hard working agent, Patt is the agent for you.

I had the opportunity to meet Patt when I was the lead instructor at a local real estate school in 1989, and watched her learn a completely new career. Patt became a master at learning and then the application of what Patt learned by helping so many people achieve their dream of owning a home or getting their house sold.

Patt has earned recognition from her peers in becoming not only a top producing agent with her company, but mentor for many new agents.

In a tough market, you need a "tough but caring" agent and that is what you will receive when you hire Patt Griffin.

Thanks for your time.
